Re: Wildlife Pond Dam #095.23 in Goshen  
Letter of Deficiency (LOD) DAM #095.23  
Issued on March 30, 2004

Dear Mr. Casagrande:

Based on a file review and a follow-up inspection conducted on June 3, 2005 of the above referenced dam, the Department of Environmental Services has determined that the referenced LOD is considered complete and will be closed. Enclosed is a copy for your reference.

DES commends you for a job well done. The following items should be noted as ongoing maintenance work:

1. Complete the armoring of the emergency spillway channel to prevent erosion during storm events; and
2. Monitor the active seep that was noted to the left of the new outlet pipe at the downstream toe of the dam.

If you have any questions or comments, please contact me at 603-271-3406 or write to the Water Division at the address listed below.

Sincerely,
